

No more paperwork parades:

Streamline payroll and empower your team with Jemini

If you're still throwing paperwork parades every pay cycle, chances are things are a tad chaotic — we wouldn't be surprised if your team is resorting to carving leave requests into the office walls. It's time to drop the stone-age tools and see what a modern, unified payroll system can do for you.

Jemini can turn your dusty payroll system into a cloud-powered prophet that will give you almost limitless insights into your most valuable resource — your people. Oh, and did we mention it's all incredibly easy to use? Now, you're ready to look to the future and start efficiently managing, inspiring, and motivating your employees.

Reveal the power within your payroll data

Effortless efficiency and flawless accuracy:

Automate complex tasks, eliminate errors, and ensure on-time payments, every time. Actually, free up your team's valuable time for higher-level initiatives.

Compliance confidence and peace of mind:

Stay ahead of ever-changing NZ/AU regulations with automatic updates and alerts. Focus on building a thriving team, not looking for Panadol for those compliance headaches.

Flexibility that fits your business:

Handle complex payroll scenarios with ease, whether it's managing multiple employments for individual staff or sorting out retroactive changes.

Data-driven decisions, brighter outcomes:

Leverage powerful but easy to understand analytics and reporting to gain deep insights into your workforce. Make informed decisions — oh, it also makes pretty slick dashboards to show the boss, too.

Drowning in spreadsheets and reports that speak a language only sorcerers understand? Jemini Payroll untangles the data jumble and translates it into truly actionable insights. Review trends with ease, predict staffing needs with confidence, and optimise performance — finally, data that makes sense and empowers strategic decision-making. *That's the Jemini difference.*

Jemini's effortless power: features that unveil payroll insights

Tired of data dungeons and cryptic reports? Jemini Payroll unlocks the power of your payroll data with clear as sunny day insights, presented in a way that's as easy to understand as your favourite app.

Effortless date management

Dynamic transactions: Handle future-dated transactions and retroactive changes effortlessly.

Historical data access: Maintain a complete audit trail for compliance and reference checks.

Up-to-the-minute leave management

Accurate tracking: Real-time updates of leave balances for complete transparency.

Integrated workflows: Simplify leave requests and approvals with automated workflows.

Real-time processing and flexibility

Instant calculations: Process payroll in real-time, ensuring accuracy and on-time payments every time.

Always open for business: Run payroll whenever you need to, without waiting for scheduled cycles.

No opening of pay cycles: Process payroll components for the future, whenever needed.

Powerful (but easy) reporting and insights

Comprehensive reports: Generate detailed reports covering earnings, deductions, taxes, and more.

Data analytics: Uncover deeper insights with powerful but easy-to-use analytics tools.

Automated compliance reporting: Stay compliant with NZ/AU regulations with automated reports.

Always up-to-date and compliant

Automatic updates: Stay compliant with the latest legislative changes automatically.

Legislative alerts: Receive notifications about changes impacting payroll processes.

Compliance alerts: Be warned of upcoming deadlines and expiration dates with compliance implications.

Multiple employment management

Seamless handling: Manage multiple employments for individuals within your organisation effortlessly.

Consistent processing: Ensure accurate and consistent payroll calculations across all employments.

True SaaS (Software-as-a-Service)

Cloud-based access: Access your payroll system from anywhere, anytime with an internet connection.

Automatic updates: Benefit from automatic updates for the latest features and enhancements without downtime, guaranteed.

Security and reliability: Enjoy enterprise-grade security and guaranteed uptime, ensuring data protection and system availability.

Cost-effective: Reduce IT overhead with a subscription-based model that includes maintenance, updates, and support.

Where to next with Jemini
